Art Unit: 2834

Allowable Subject Matter

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: in addition to the reasons cited for previously allowed claims in the most previous office action, the prior art fails to show or fairly suggest a supporting unit connected to both a piezoelectric actuating unit and a switching unit wherein the supporting unit is positioned in an actuating space, wherein connection portions connect this structure through a cantilever to one side of a substrate in a micro switch structure that further includes a discontinuous signal line displaced at a certain interval from a side of the substrate and wherein the actuating unit is actuated to connect or disconnect the signal line.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Direct inquiry to Examiner Dougherty at (571) 272-2022.
